## REPORT OF BOARD OF MANAGERS.

AUSTIN, TEXAS, December 1, 1900.

*Hon. Jos. D. Sayers, Governor of Texas.*

SIR: In transmitting to you the report of the Superintendent of the Confederate Home (which is adopted as the report of the Board of Managers), we would most respectfully call your attention to that part of the report which refers to the necessity for amending the present law, and would recommend that the Legislature be requested to so amend Article 172 of the Revised Statutes as to give the Board of Managers authority to control the conduct and behavior of the inmates while outside of the limits of the home. This recommendation is caused by the recent decision of the judge of the Fifty-third Judicial District to the effect that the Board has no such authority, which decision, to a great extent, limits the power of the management for efficient control.

Very respectfully,

J. B. ROGERS, President.

A. W. McIVER.

E. P. REYNOLDS.

D. S. CHESHER.

## REPORT OF SUPERINTENDENT.

SUPERINTENDENT'S OFFICE  
OF THE TEXAS CONFEDERATE HOME,

AUSTIN, TEXAS, November 30, 1900.

*Hon. J. B. Rogers, President Board of Managers of the Texas Confederate Home.*

DEAR SIR: On December 1, 1899, we had 240 inmates on the roll. Since that time we have admitted 66 new men; discharged 10. Nearly all of these when admitted were in a bad condition physically, and showed their need of the comforts provided for them here.

We have been able through the State Purchasing Agent to supply the men with good clothing, shoes, etc. The estimate made by the Twenty-sixth Legislature for the maintenance of the home was, from March 1, 1899, to March 1, 1900, \$40,000, and from March 1, 1900, to March 1, 1901, \$45,000, and we will be able to care for the home, I think, without any deficiency.

The Twenty-sixth Legislature also appropriated for painting and repairs \$1,200, which, I think, has been expended to the good advantage of the home. The repairs made have added greatly both to the comfort and appearance of the home. The first appropriation for a new hospital (\$10,000) was not sufficient to complete the building on the plans adopted by the Board, and at the called session of the Twenty-sixth Legislature that body added \$5,000 to the \$10,000 already appropriated, making \$15,000 to build and furnish the new hospital, which was finished so that we moved into it on July 5, last. Now we have an "up-to-date" hospital in all its appointments. However, the surgeon will make a full report on this line.

The Twenty-sixth Legislature also made an appropriation of \$1,330 for the laundry. Soon after we got the laundry in operation the dam broke, and we were without power to run the machinery, and had to go back to the old washing machine. For about thirty days after the breaking of the dam we had to haul all of the water used at the home. This was very expensive, costing about ten dollars a day. As soon as the city built their new power plant they gave us water at the old price, \$18.00 per month, which is reasonable enough. I, on the direction of the Board, contracted with the Water and Light Company to supply the laundry with power two days in the week at \$20.00 per month; also for lights at the home for \$65.00 per month. They declined to contract at these figures for any special length of time, for the reason they feared they could not afford it, as running by steam was so much more expensive than running by water: so I cannot tell how long this contract will last.

It does seem to me that it is greatly to the State's interest, both as to

economy and efficiency of service, for the home to own and operate its own electric plant; also, that the entire home be heated by this plant. We can now only get light until 7 a. m., at which time the men are not through with their breakfast, so that we have to provide lamps for them to see to eat. The power has to be diverted from the home to run the machinery in the city at 7 a. m. Another reason for this change is: we have about 100 stoves in the home, nearly all of which have to be repaired each fall, and many of them have to be discarded and new ones put in their places. All this kind of work is expensive, for we are simply at the mercy of the dealer, and must come to his terms, no matter how exorbitant his prices may be. I do not think in the aggregate that the expense will be much greater, and the service would be much better and more satisfactory with less risk of fire.

After a conference with the other officers of the home, I sent the estimate for the maintenance, which will appear later on in this report. I have asked the Legislature to appropriate \$5,000 more for the year ending February 28, 1902, than we had this year. The reason of this is: for the last sixty days we have averaged sending one blank application a day, and I expect in the next six months to have at least one hundred applications for admission to the home. A large number have already discarded the small pittance of a pension they now receive and applied for a place here, and some have already been admitted. I expect this class of old soldiers will increase as the years go by, and they get more helpless.

You will observe in the estimate that I have asked for \$8,000 to build a new dining room. I believe this to be an imperative necessity, as so many of our old men are nearly helpless, and nearly blind, that they can scarcely get in and out of the present dining room. Beside this, there are sixteen men with one leg, and after they scramble down into the dining room we have, it is so dark they can scarcely see to eat, and most of the time, if the day is cloudy, lamps have to be lighted for them to see how to eat.

I have also asked for \$5,000 to build new quarters for the men I am sure will apply for admission in the next two years.

I have only asked the Legislature for what I honestly and candidly believe to be necessary for the care and comfort of these old soldiers. I beg of your Board and your successors to impress upon the incoming Legislature the necessity of making liberal appropriations for the Confederate Home.

I respectfully call your attention to the advisability of amending the present law so that the Board may have undoubted authority to either discharge or punish in some way habitual drunkards. A man who habitually gets drunk is able to make a living if he would keep sober.

The law should also be amended so as to give the Board ample authority to dismiss men guilty of any disgraceful behavior, committed either in or out of the home enclosure while enjoying its benefits.

I do not believe it was the object or intention of the promoters of the home or the State of Texas to support any habitual drunkard or insubordinate, vicious and dangerous characters. A few take advantage of the Board and officers of the home, and violate with impunity all reason-

able rules, and make themselves disagreeable and obnoxious to their room-mates, as well as to the inmates generally.

I am glad to state that there are only a few who do this. At least nine-tenths of the inmates are made unhappy by the few mentioned above.

I believe the wholesome rules made by the Board should be made statutory, to the end that violaters of the law may be sure that the law will be enforced.

I have endeavored, with the resources at my command, to do the best I could for the welfare and success of the home. I know I have made mistakes, but they were not intentional. I want to thank the Board for their unstinted and valuable assistance in the administration of the very difficult affairs of this institution. You have been most valuable counselors in all that had to be done. I should be recreant of my duty did I not, here and now, acknowledge my obligations to the Board of Managers of this home. You have borne with all my mistakes and stood nobly by me all the time.

I want to say, that all the officers have been most loyal to me, as well as to every interest of the institution, and the helpers have been obedient and faithful in their places.

Next below is the report of the surgeon of the home, then follows my estimate for appropriations necessary for the next two years; a list of the inmates with the commands with which they served during the war, in the order named.

I respectfully submit this report with the request that it be printed in connection with your report to the Governor.

Very respectfully,

R. Y. KING,

Superintendent Confederate Home.

Average of the dead, 67 18-33 years.

AGE OF ALL THE INMATES WHO HAVE PASSED THROUGH THE HOME FROM  
DECEMBER 1, 1899, TO DECEMBER 1, 1900.

48 from 54 to 60 years of age.  
130 from 60 to 70 years of age.  
73 from 70 to 80 years of age.  
22 from 80 to 90 years of age.  
2 from 90 to 100 years of age.

## PHYSICAL CONDITION OF ALL THE INMATES FOR THE SAME PERIOD.

11 are blind.  
12 are partially blind.  
16 with one leg each.  
2 have no feet.  
5 with general paralysis.  
10 with partial paralysis.  
7 with one arm.  
8 with one useless arm.  
16 with some form of heart disease.  
30 with hernia, using trusses.  
6 with cancer.  
10 with chronic bronchitis.  
20 with gunshot and other wounds to dress.  
2 with diabetes militis.  
2 with cardiac dropsy.  
4 with epilepsy.  
6 with asthma.  
12 with other constitutional diseases.  
2 with gall stones.  
6 with alcoholic cirrosis of the liver.  
12 with morphine habit.  
2 with opium habit.  
3 imbeciles.  
1 with aneurism of the aorta.  
40 with chronic rheumatism.  
6 with stricture of the urethra, using catheters.  
2 with senile debility.  
15 with neuralgia from old wounds.  
8 with dyspepsia.  
13 with chronic cystitis.  
8 with chronic diarrhea.  
1 with paralysis agitans.  
2 with sclerosis of the spinal cord.  
6 with consumption.  
1 with artificial anus from defective operation for fistula in ano.  
1 with general debility.  
10 of the above number use rolling chairs.  
12 of the above number use crutches.

You see we have an infirmary in which every inmate has a surgeon's certificate, under oath, that he is unable to make a living by his own exertions; no others can be admitted under the law.

Neither the doctors nor citizens of the State have a just conception of the condition and necessities of these patriotic old men, who gave their young manhood to the defense of the South. And with all their faults (and none of us are perfect), are entitled to the very best care the State can give them.

We are under obligations to the Governor, Legislature and the Board of Managers for an up-to-date hospital.

We moved into the new hospital July 5, 1900, with forty-nine patients.

There are fifty-three beds in the hospital, and the table seats sixty inmates. The average number of patients is forty-seven, the present number is forty-nine.

The hospital was built with due regard to sanitary conditions, and has been kept nicely since our occupation.

While the death rate appears to be very large, it is much below some other similar institutions. We report 263 on the roll with thirty-three deaths.

A number of reports of similar institutions show that our death rate is not up to the normal.

I am under obligations to Drs. Hudson, Gilbert, McLaughlin and Bennett for their counsel and assistance in many critical cases.

Very respectfully,

L. D. HILL, Surgeon.
